13th Annual Florida Charter School Conference

In November 2009, Lance Swearingen, Nathan Swearingen, and Jim Popino, three representatives of Global Tutors attended the 13th Annual Florida Charter School Conference in Orlando, Florida. This conference is attended annually by over 400 representatives and associates from Charter schools across the state. Also in attendance were administrators of charter schools, principals, vice principals, teachers and other top administrative staff. The main topic for this conference was “Charter Schools: Not Just Another Public School.” This conference is another conference in a series signifying the shift from public schools to char-

ter schools. The welcoming address was given by Mr. T. Willard Fair, the chairman of the Florida State Board of Education. One of his

main points is that parents need to take a proactive approach to their children's education. Also at the conference was speaker Annette L. Breaux, who is one of the most entertaining and informative authors and speakers in the field of

education. She talked about the role that teachers play. She said that teachers play a pivotal role in a student's life; and also, that a teacher gets a second chance with a student every single day. Overall, there is a shift happening from public schools to charter schools, and Global Tutors is looking forward to playing a big part in making this transition work.

New Website is Up and Running!

We are very excited about the new Global Tutors website, www.globaltutors.net, which has been up and running now for a couple of months. The look and feel is more professional, easier to navigate, more informative and much more user friendly. We made it extremely easy for users to get exactly the information they need, quickly and efficiently. We have a new look with different colors and our new, restyled brochure is on there as well. We've divided it

into three sections: Individuals, Schools and Colleges, which makes it a snap for users to get exactly the information they need quickly. We have also added interesting new videos, which give demonstrations on how the software actually works, as well as testimonials from teachers, administrators, and students. We are very excited about the new Global Tutors look!

The screenshot shows the Global Tutors website interface. At the top, there is a 'User Login' section with fields for 'User Name' and a password field, and a 'Login' button. Below this is a navigation menu with tabs for 'About Us', 'How It Works', 'Our Tutors', 'Practice Test', 'Test Preparation', 'Pricing', 'Parent Resource', and 'Contact'. The main content area features three columns: 'Individuals', 'Schools', and 'Colleges', each with a representative image. A large 'View Demo' button is prominently displayed. Below the navigation, there are two video player windows. The first video shows a tutor wearing a headset working at a computer. The second video is a promotional graphic for Global Tutors with the text 'Global Tutoring Now Available' and the website URL 'www.globaltutors.net'. To the right of the videos, there is a 'Need Help?' section with contact information: '1-888-90-GETGT', 'Email Us', 'Connect with Live Representative', 'Register Now', 'Free Trial', and 'View Brochure'. Below this is another 'View Demo' section with a small image of a red sand dune. At the bottom, there are logos for 'BBB' (Better Business Bureau) and 'Florida School Choice'.
